

(a) The feedforward sweep

(b) Localized recurrent processing

(c) Widespread recurrent processing

?	Verbal report
	Detection in Yes/No task
	Evidence of storage in episodic memory
	...
	Planning behavior
	Storage in working memory
	...
	Cognitive manipulation (e.g. calculus)
	Mental rotation
	Response inhibition and countermanding
	...
Evidence of conscious experience	Object recognition
	Localization
	Eye movements
Evidence of unconscious processing	Forced choice guessing
	...
?	Evidence of semantic processing
	Judging emotional expression
	Evidence of priming
	...
	Skill acquisition
	Perceptual learning
	Adaptation
	...
	Galvanic skin response
	Pupil dilation
