

Instruction cue indicating orientation is the relevant dimension (colored box) and that there are 4 potential responses

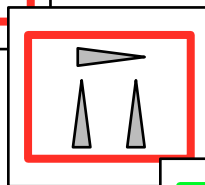

Univalent stimulus, with 2 as the appropriate response

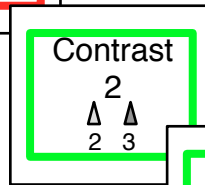

Univalent stimulus, with 4 as the appropriate response

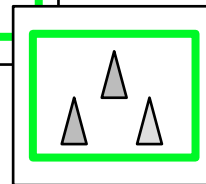

Bivalent (incongruent) stimulus, with 3 as the appropriate response, but 1 as a conflicting potential response based on contrast

Bivalent (congruent) stimulus, with 4 as the appropriate response, and that response also supported by shape

Instruction cue indicating contrast is the relevant dimension (colored box) and that there are 2 potential responses

Neutral stimulus with 2 as the appropriate response

	1	2	3	4
